

UI UX CASE STUDY

DIGITAL WALLET APP

PROJECT BY:
SHAISHAB JOSHI

**TOOLS USED
FIGMA**

DIGITAL WALLET

PROJECT NAME
Paisa Flow

GOAL
To simplify everyday Digital Wallet Management.

TYPE
Mobile App

TARGET AUDIENCE
Students, professionals, shoppers, and small businesses who prefer quick and secure payments.

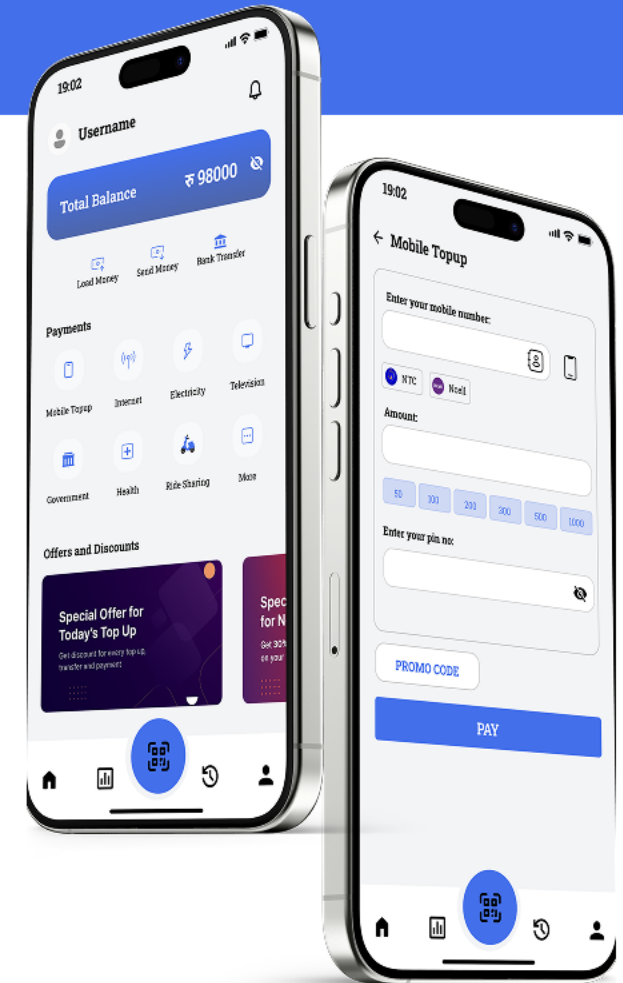

PROBLEM STATEMENT

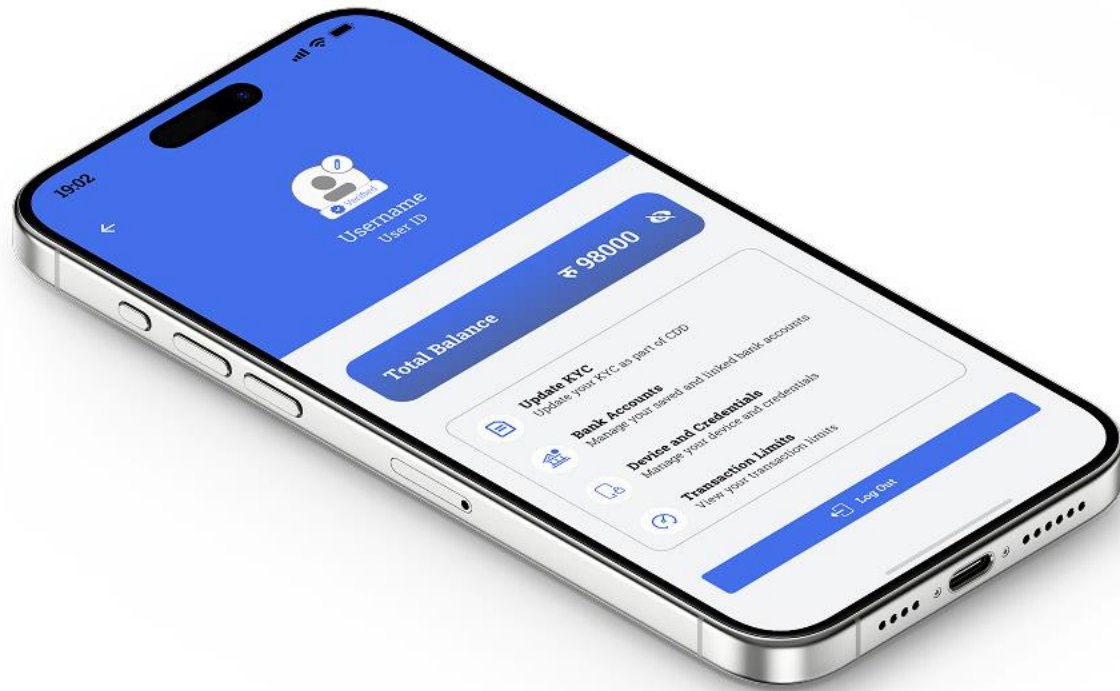

- Users struggle with cluttered and confusing interfaces.
- Security concerns reduce trust in mobile wallet usage.
- Delayed or unclear transaction feedback frustrates users.
- Lack of personalization clutters the user experience.

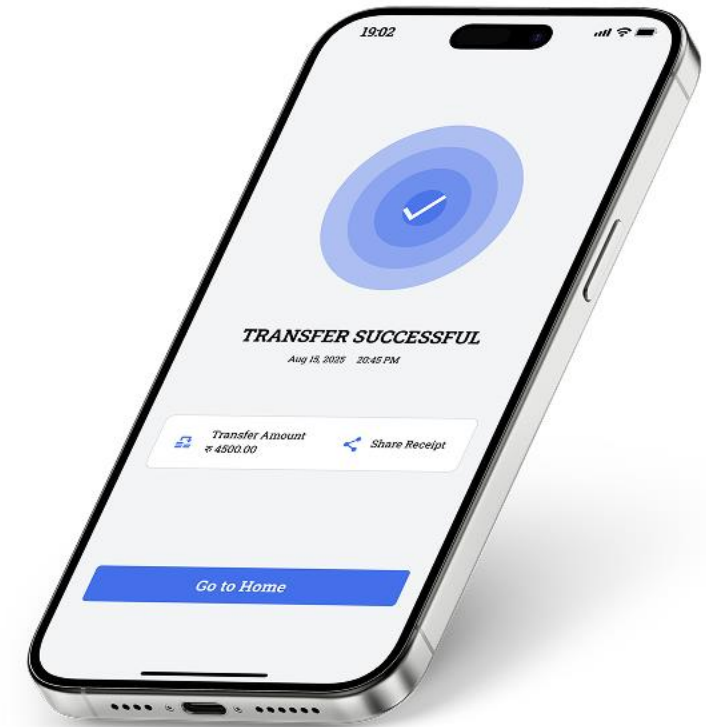

PROPOSED SOLUTION

- Simplify interfaces with clean layouts and intuitive navigation.
- Enhance security using biometric login, OTP, and strong encryption.
- Ensure accessibility with lightweight design and support for low-end devices.
- Integrate multiple services (payments, bills, rewards) into a single app.

Paisa Flow is a modern mobile wallet app designed to simplify everyday Digital Wallet Management.

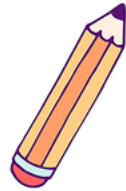

Unique onboarding and highlighted user friendly illustration so that user can easily engage with the app

UX DESIGN THINKING PROCESS

Empathize

Understand the users, their needs, and their problems.

Define

Clearly frame the problem based on user insights.

Ideate

Generate as many creative solutions as possible.

Fast and Secure Payments
Send, receive and manage money instantly with robust security

Design

Transform ideas and requirements into structured, user-friendly interfaces.

USER PERSONA (DEFINE)

Subash Shrestha

Age: 28

Occupation: Product Designer

Location: Kathmandu, Nepal

Problems

- ✗ Complex interface for new users.
- ✗ Delays in sending or receiving money.
- ✗ Weak security with only SMS OTP.

Solutions

- ✓ Design a clean and user friendly interface.
- ✓ Ensure real time updates
- ✓ Display all charges clearly before transactions.

Ramesh Shakya

Age: 26

Occupation: Developer

Location: Kathmandu, Nepal

Problems

- ✗ Slow or unhelpful customer support.
- ✗ Poor usability in areas with weak internet.
- ✗ Frequent app crashes or technical glitches.

Solutions

- ✓ Enable biometric login alongside OTP and PIN.
- ✓ Offer 24/7 customer support.
- ✓ Optimize app for stability and low data usage.

USER INTERVIEW (QUALITATIVE RESEARCH)

1. How often do you use digital payment apps?

I use them 2–3 times a week, mostly to send money to friends or pay utility bills.

2. What difficulties have you faced while using digital wallets?

Sometimes the app crashes when I try to pay, and I have to start over. It's really frustrating.

3. What would make a digital wallet app more convenient for you?

I want an app that's simple and easy to navigate, with clear buttons for payments, transfers, and bills.

4. Do you prefer apps with simple interfaces or apps with more features?

I like a balance, simple to use for basic tasks, but with extra features available if I need them.

SURVEY (QUANTITATIVE RESEARCH)

How often do you use a digital payment apps

Which digital wallet apps do you use?

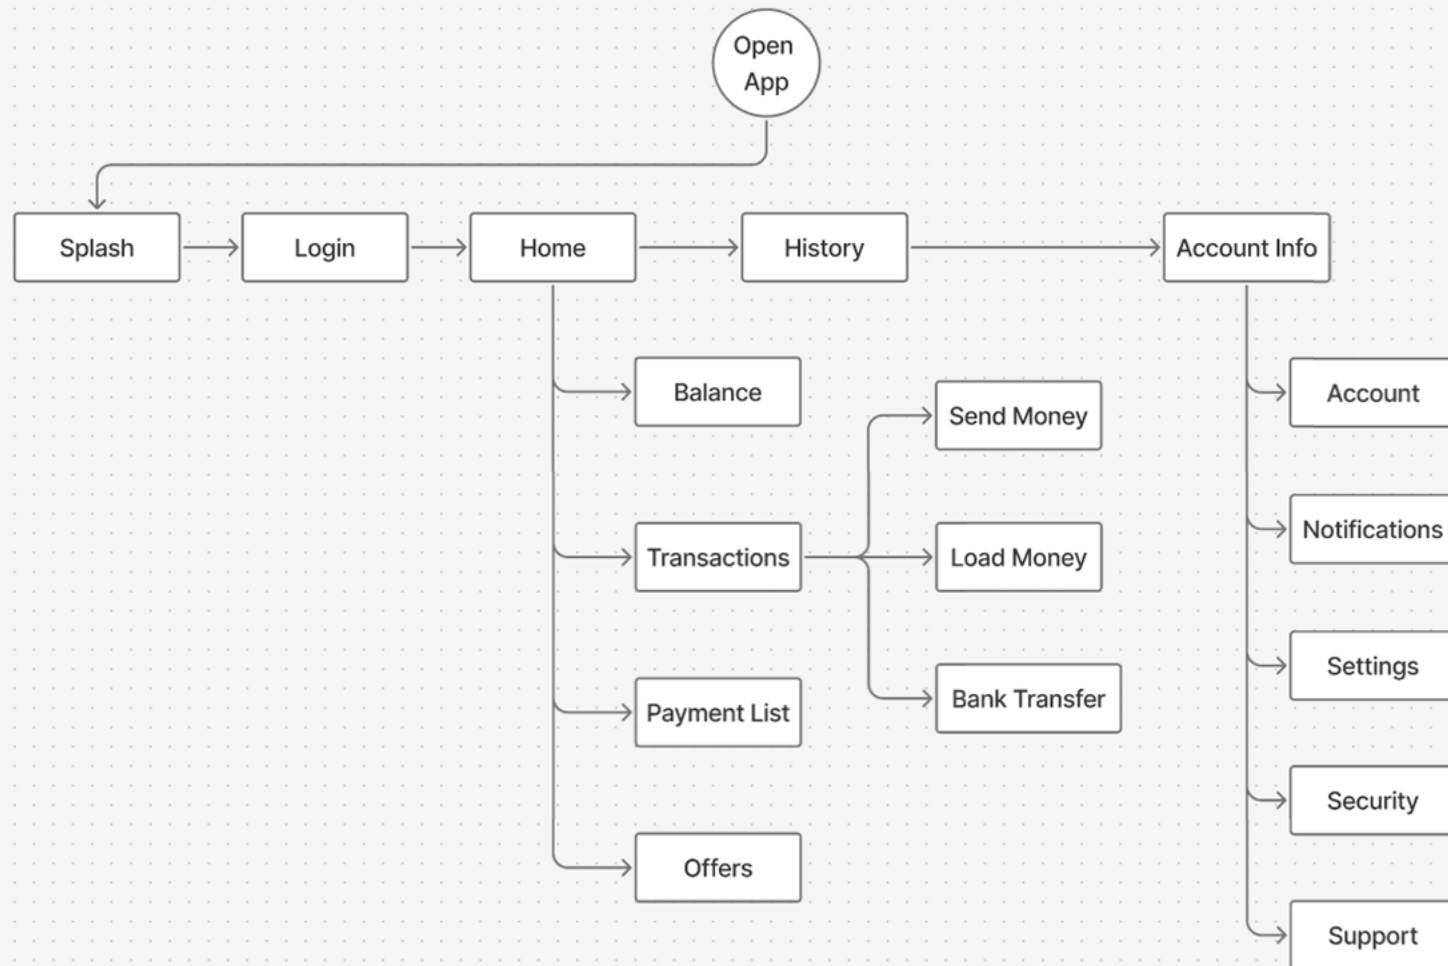

Have you ever faced problems with digital wallets?

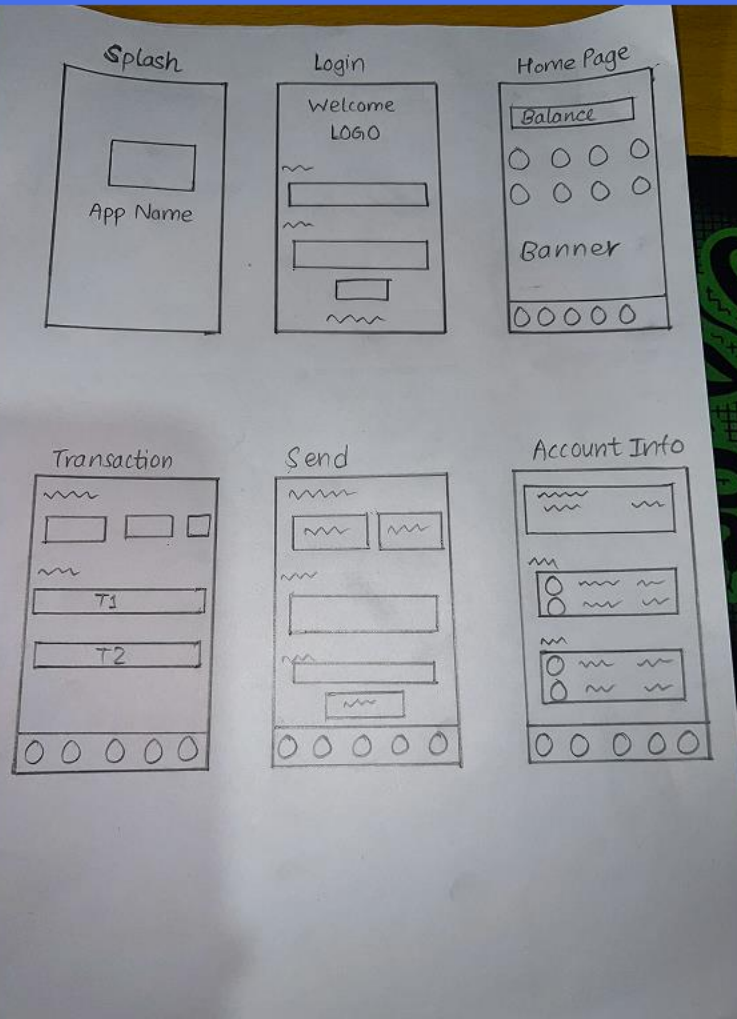

What is the most important thing in digital wallets?
